### GAZETTE OF INDIA.

#### NOTICE.

The 23rd October 1911.

From the 2nd December next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 25th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

## NOTICES.

### THE PATENT OFFICE.

1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 A.M. to 4 P.M.; Saturdays, 11 A.M. to 1 P.M.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2. *Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price, 10 annas) and in the Indian Patents and Designs Rules, 1912. (price, 2 annas.) These should be consulted before an application is made to the Controller.

3. *Fees* are payable in *cash* and must be received in the Patent Office within the times allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

4. *Trade and property marks* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration.

5. *Specifications* of inventions which have been notified in the *Gazette of India* as filed under the provisions of the Inventions and Designs Act (V of 1888) may be inspected on payment of a fee of one rupee at :—

## DEPARTMENT OF AGRICULTURE IN INDIA.

## NOTIFICATION.

Pusa, Bengal, the 3rd February 1912.

The Prospectus of the Agricultural Research Institute and College, Pusa, published in Part II of the *Gazette of India*, dated the 4th November 1909, has, with the approval of the Government of India, been revised as follows on pages 1407 to 1412—

**Prospectus of the Agricultural Research Institute and College, Pusa.**

*(The Prospectus is subject to such alterations as may from time to time be ordered.)*

## I. PREFATORY.

The Agricultural Research Institute and College, Pusa, owes its inception to the generosity of Mr. Henry Phipps who in 1903 placed at the disposal of Lord Curzon, then Viceroy and Governor General of India, a donation of £20,000 (which he afterwards raised to £30,000) with the request that it might be devoted to some object of public utility in India, preferably in the direction of scientific research. Part of this donation was devoted to the construction of a Pasteur Institute at Coonoor in southern India, and it was decided that the balance should be utilized in erecting a laboratory of agricultural research which, it was hoped, would form a centre of economic science in connection with that occupation on which the people of India mainly depend. This conception was subsequently enlarged, and the Government of India have now constructed a college and research institute to which a farm of some 1,300 acres is attached for purposes of experimental cultivation and demonstration.

In 1903, when the research station was sanctioned, it was intended to combine it with a college which should give a general agricultural education and should serve as a model for the few agricultural colleges and schools of very unequal merit which then existed in India. Recently, however, this conception of the functions of the Pusa College has undergone a material change. It is now recognised that the first and most essential condition of any permanent improvement in the agricultural methods of this country is the widest possible diffusion of an organised knowledge of scientific and practical agriculture, and at the same time it is desired to make the country as far as possible self-supporting in the matter of development of agricultural training and research. A comprehensive scheme for the promotion of agricultural education throughout India, has accordingly been drawn up, as the result of which it is hoped that every important province will soon be provided with a fully equipped college where students will for three years receive practical and scientific education in agriculture. The position which the Pusa College is intended to occupy in relation to this general scheme is that of a higher teaching institution. Its main object is to enable students who have passed with distinction through a course of a provincial college, by means of a post-graduate course in one of the specialised branches of agricultural science, to qualify for the higher branches of agricultural work.

## 2. THE PUSA ESTATE.

The estate consists of 1,300 acres, of which 400 are arable, 400 are pasture; nearly all the field crops of the plains can be grown there. The farm buildings are up-to-date, and herds of breeding and milch cattle are maintained. There are complete arrangements for the manufacture of indigo and the curing of tobacco. Poultry breeding is being carried on; there is a large and well-laid-out orchard and botanical garden. Every facility for the practical teaching of agriculture and agricultural subjects has been provided. The students' laboratories are extensive, well lighted and equipped; there is a library for the use of students. The students' hostel is complete, and there is ample accommodation for 70 students. Waini, on the Bengal and North-Western Railway, is the nearest railway station. It is six miles from the college by a good road. There is a telegraph and post office within the estate.

## 3. CONSTITUTION AND STUDIES.

1. **CONTROL.**—The College is under the general supervision of the Inspector-General of Agriculture in India and is under the direct control of the Director of the Research Institute and Principal of the College.

2. **STAFF.**—The superior staff of the College consists of—

1. The Principal.
2. The Imperial Agricultural Chemist.

3. The Imperial Mycologist.
4. The Imperial Entomologist.
5. The Imperial Economic Botanist.
6. The Imperial Agriculturist.\*
7. The Imperial Agricultural Bacteriologist.
8. The Second Imperial Entomologist.

3. **COURSE.**—The ordinary College course extends over two years, and the students will be trained in one or other of the following sections of agricultural science, no students being trained in more than one section at a time :—

1. Agricultural Chemistry.
2. Economic Botany.
3. Economic Entomology.†
4. Mycology.
5. Agricultural Bacteriology.
6. Agriculture.

4. **SYLLABUS.**—In the absence of experience of the class of student likely to be received, it is impossible to lay down a permanent syllabus of the training in each subject. The syllabus that follows is tentative and is subject to the condition that time will not be wasted in taking students over ground that is already familiar to them.

#### I.—Agricultural Chemistry.

(TWO YEARS' COURSE.)

(i) A course of lectures and laboratory practice of the same type as laid down in the *Standard Curriculum for Provincial Colleges*.

(ii) A course or courses of lectures in advanced chemistry which shall follow such lines as have an important bearing on agricultural science. Each student will then take up a particular line of investigation suggested to him by the lecturer. At the end of the course each student will write an essay embodying the whole of his work, and the results positive or negative he can deduce therefrom.

#### II.—Botany.

(TWO YEARS' COURSE.)

(First year.)

(a) *Physiology of Plants.*—The course will be mainly practical and will be based on Darwin and Acton's *Physiology of Plants* (Cambridge University Press).

The work will illustrate the effect of various conditions on plant development and will include—

- (a) Respiration.
- (b) Assimilation.
- (c) Nutrition.
- (d) Transpiration.
- (e) Growth.
- (f) Movements.

(ii) *The Improvement of Plants.*—The lectures will deal firstly with the principles underlying the modern development of plant-breeding, such as Mendel's Law and Mutation, and secondly with the particular methods adapted to Indian conditions, and this part of the course will be supplemented by field work.

The subjects treated will be—

- (a) Evolution, Variation and Mutation.
- (b) Selection.
- (c) Hybridization.

(iii) *The Principles of Indian Fruit Growing.*—The course will include—

- (a) The general management of a modern fruit garden.
- (b) Special processes, such as Propagation, Pruning and root-pruning, Weathering.
- (c) Disposal of the produce.

\*The post of Imperial Agriculturist has been temporarily absorbed in the post of Director and Principal.

†The entomological course will be for one year only.

In the case of students who show special aptitude for work in Economic Botany and who are likely to become qualified to undertake original work, the course will be extended to two years.

(Second year.)

In general this second year's work will deal with the practical application of the principles of plant improvement, and a general knowledge will be given to students of the planting, cultivation and improvement of plants which are of special economic importance in their respective provinces.

### III.—Entomology.

(ONE YEAR'S COURSE.)

- (i) Collecting, pinning, setting.
- (ii) Classification. How to use text-books.  
" How to use the collection.
- (iii) Anatomy of cockroach or other form.  
Comparative anatomy as shown by dissection, mouth parts, etc.  
Terms used in classifying.
- (iv) Classification and terms used in each order.
- (v) Actual identification and revision of the collection.
- (vi) Biology and life histories—general, special and details.
- (vii) An account of each family in order.
- (viii) Pests:—first general, then special by order, then special by crops.
- (ix) Complete list of the injurious insects in India.
- (x) Preparation of leaflets and lecture course for the province, with exhibition collection of insects of that province.
- (xi) Useful insects (lac, silk, apiculture).
- (xii) Beneficial insects and birds.
- (xiii) Preventive and remedial measures.

### IV.—Mycology.

(TWO YEARS' COURSE.)

1. *A Revisionary Course in Plant Anatomy and Physiology.*—Time—two to three months.

Anatomy. Histology of the cell and tissues. Anatomy of the root, stem, and leaf.

Physiology of nutrition.

2. *General Mycology.*—Time—six months.

Definition and characters of the fungi.

Structure of the Thallus—

(a) Vegetative portion, mycelium, rhizomorpha, sclerotia.

(b) Reproductive portion; sporophores; spores; germination.

Life habits of fungi.

Dissemination.

Polymorphism.

Food of fungi, saprophytes, parasites.

Symbiosis.

Heteroecism.

Specialisation of parasitism.

Classification. The study of the six main groups of fungi with examination of types.

3. *Pathological Mycology.*—Time—15 months.

Causation of disease by fungi. Infection.

Effects of parasitic fungi on plants.

Diagnosis of disease: symptoms of fungus attack.

Prevention and treatment of fungus diseases of plants.

Predisposition of plants to disease; immunity.

Factors of disease. Epidemics.

A general study in field and laboratory of the principal fungus diseases of crops in India.

A more detailed study with experiments of a selected fungus disease.

If possible, the student should accompany a trained assistant in a field enquiry for the purpose of giving him practice in independent observation and collecting information.

#### V.—Bacteriology.

A short course in bacteriological methods, preparation and sterilization of media and the cultivation of bacteria.

Students who have passed through this training satisfactorily will take part in the research work of the laboratory under supervision.

#### VI.—Agriculture.

Special instruction will be given in the management of field and garden crops and orchards, and in the use of agricultural machinery, tools and implements and in cattle, sheep and poultry breeding.

As a temporary measure to assist the provinces which are not in a position to train their own men as superintendents of farms or for other positions requiring a practical agricultural education, a course in general agriculture will be given.

5. *TERMS*.—The terms for students in the Chemical, Entomological,\* Mycological, Bacteriological and Agricultural Sections are as follows :—

*Summer Term*.—From 1st June to commencement of the Durga Puja holidays.

*Winter Term*.—From close of the Durga Puja holidays to 31st March.

*Vacation*.—From 1st April to 31st May.

Students will get in addition all the usual gazetted holidays.

The term for students in the Botanical Section is from 1st October to 30th April, but students will get the usual Christmas holidays if they can be taken without detriment to the work.

6. *CERTIFICATES*.—For the present it has been decided not to hold periodical and final examinations, but certificates signed by the head of the section and countersigned by the Principal, will be presented to students who have passed through the College course with credit.

#### 4. ADMISSION RULES.

1. *Accommodation*.—The total number of students that can ordinarily be admitted in each of the following sections every year is as follows :—

Agriculture	8
Agricultural Chemistry	8
Mycology	8
Entomology	8
Botany	8
Agricultural Bacteriology	4
	<hr/> 44 <hr/>

The number of studentships to be allotted each year to the respective provinces as well as the number of nominations, if any, to be made by the Principal, will be decided by the Principal before the 1st April, after consultation with the provincial authorities as to their requirements, and communicated to the Local Governments and Administrations concerned.

2. *Students*.—There will be three classes of students—

(i) Students nominated by a Local Government or an Administration.

(ii) Students deputed by a Native State, on the nomination of the Inspector General of Agriculture in India.

(iii) Private students.

3. Students nominated by a Local Government or Administration should ordinarily be men who have passed with credit through a provincial agricultural college, or are graduates of an Indian University or possess a degree or diploma of approximately the same standard granted by any other educational institution.

\* But students of the Entomological Section must attend during one of the periods of lac production either from 20th May to 20th June or from 20th September to 20th October.

4. Students deputed by a Native State may be admitted on the application of the State concerned, provided that accommodation is available. Applications should be addressed, in the first instance, to the Inspector-General of Agriculture in India, Pusa, Bengal, and should reach him before the 15th March. The nomination of such students is made by the Inspector-General of Agriculture in India, and his nomination should reach the Principal before the 1st April, as provided in Rule 1 above.

5. Students of class (ii) above will be required to pass a satisfactory test to be applied by the chief of the section concerned at Pusa.

6. (i) *Private Students*.—Private students may be admitted by the Principal provided that accommodation is available. Candidates for admission should be not less than 19 years of age, and should submit their applications to the Principal before the 1st April in each year. Ordinarily only candidates will be admitted who have the same qualifications as are prescribed for students nominated by a Local Government or Administration in Rule 3 above, and such candidates may also be required to pass the test mentioned in Rule 5 above.

(ii) A private student must attach to his application (a) a certificate of age, (b) a health certificate signed by a Civil Surgeon testifying to the candidate's physical fitness for such out-door work as is required to be done in the Agricultural Department, (c) a certificate of good moral character from the Principal of the Agricultural College from which he graduated or from any one else of influential position. The certificates (b) and (c) must bear a date within six months of the date of application for admission into the College.

(iii) The Principal may relax any of the conditions imposed under rule (ii) should he consider it desirable.

(iv) The names of those private students who succeed in obtaining the College certificates will be entered by the Principal in a register to be kept for the purpose, and will be communicated to the Directors of Agriculture in the various provinces so that these private students may be offered employment if their services are required. The names will also be published in the *Gazette of India* and in provincial Government gazettes.

7. It will be at the discretion of the Principal, with the advice of the scientific officer in charge of the section, to declare at any time the unfitness of a student for training and to require his removal from the College.

8. The expenses of a student at the College will, it is estimated, not exceed Rs 25 per mensem. But the following sums will approximately be required for the purchase of books:—

	R
Agricultural Chemistry . . . . .	15
Economic Botany . . . . .	15
Entomology . . . . .	22
Mycology . . . . .	25
Agricultural Bacteriology . . . . .	15
Agriculture . . . . .	15

10. Local Governments will be left to make students whom they depute to the College such allowances and grants as they think fit. In the case of students already in Government service the allowance should not exceed the pay of their grade, and in the case of other students they should not exceed Rs 50 a month.

11. Caution money and initial deposits will not be required from students nominated by Local Governments, except in the case of students required to undergo training at the College, at their own expense, who must deposit with the Principal a sum of Rs 50 to meet the initial cost of books and in addition Rs 50 as caution money.

## 5. DISCIPLINARY RULES.

1. The Director and Principal is charged with the general control of the students, the housing and domestic arrangements, and the maintenance of discipline, and he will from time to time issue such rules and regulations as may be necessary to secure these objects. All the correspondence relating to the training of students should be addressed to the Director and Principal, Agricultural Research Institute and College, Pusa, Bengal.

2. (i) *Quarters*.—The Principal will allot to students on arrival such quarters as may be available. The College quarters are tenable during the whole period of the student's course. For the present no rent will be charged for the quarters, but the Government of India reserve the right of withdrawing the concessions from all or any class of students entering the College hereafter.

(ii) Students must make their own arrangements for meals. Separate dining rooms will be provided for different castes and religions, and meals will not be allowed in quarters without the consent of the Principal.

(iii) Every student will be responsible for articles placed in his charge. In case of loss or damage arising from carelessness he may be called upon to pay.

(iv) Students will not be allowed to keep dogs. Horses and cattle cannot be kept without the permission of the Principal.

(v) No student may leave the estate premises without the permission of the Director and Principal. No student may be absent from his quarters after 10 P.M. without the permission of the Director and Principal.

3. *Library*.—The use of the library will be allowed subject to the library rules.

4. *Books and Instruments*.—The list of books required by students of each section will be published by the Principal from time to time. Apparatus and other laboratory requirements will be provided free, but students using them will be responsible for their safe custody and return.

5. *Leave*.—During the course of instruction no student may leave Pusa without the order of the Principal. Subsidiary rules regarding leave will be made by the Principal from time to time.

6. *Holidays*.—Such of the usual local holidays as are allowed will be notified from time to time.

7. *Punishments*.—Students are liable to the following punishments which may be imposed by the Principal :—

Entry in conduct register.

Stoppage of leave or fine.

Removal or dismissal from the College. An extract of the order of this kind passed by the Principal shall be forwarded to the Local Government or Native State concerned for information.

### GAZETTE OF INDIA.

#### NOTICE.

The 23rd October 1911.

From the 2nd December next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 25th November all notifications and other matter intended for publication in the *Gazette* should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.
